

Donation Analytics Dashboard for NayePankh Foundation

Submitted By:
Pratik Manwatkar

Data Analytics Internship Assignment

Tools Used:

- *Power BI*
- *Excel*

Date: June 2026

1. Project Overview

Objective

The objective of this project is to analyze donation patterns and fundraising performance for NayePankh Foundation using Data Analytics and Power BI. The dashboard provides insights into donor behavior, campaign effectiveness, geographic contribution, and payment preferences, enabling the organization to make data-driven fundraising decisions.

Business Problem

Non-profit organizations depend heavily on donations to sustain their programs and social initiatives. Understanding donor behavior, identifying successful fundraising campaigns, and optimizing donation channels are essential for increasing revenue and improving organizational impact.

This project aims to answer the following questions:

- How much funding has been raised?
- Which campaigns perform best?
- Which cities contribute the most donations?
- How loyal are the donors?
- Which payment methods are preferred by donors?

2. Dataset Description

A realistic fundraising dataset containing donation records was created for analytical purposes.

Dataset Attributes

Attribute	Description
Date	Donation Date
Donor Name	Name of Donor
Amount	Donation Amount
Phone	Contact Number
Email	Donor Email
Cause/Campaign	Fundraising Campaign
Method	Payment Method

City	Donor City
------	------------

Dataset Summary

- Total Donation Records: 500
- Unique Donors: 99
- Repeat Donors: 92
- Cities Covered: 9
- Fundraising Campaigns: 4
- Payment Methods: 5

3. Dashboard Overview

Executive Summary Dashboard

The Executive Summary dashboard provides a high-level overview of fundraising performance through key performance indicators (KPIs), donation trends, campaign performance, and payment distribution.

Key Metrics:

- Total Donations
- Total Donors
- Average Donation

- Repeat Donors
- Top Campaign
- Top Contributing City

Donor Analytics Dashboard

The Donor Analytics dashboard focuses on donor behavior and donor retention.

Features:

- Top Donors
- Donor Segmentation
- Repeat Donor Analysis
- Donation Distribution
- Retention Rate

Campaign Analytics Dashboard

The Campaign Analytics dashboard evaluates fundraising campaigns and identifies the most successful initiatives.

Features:

- Campaign Revenue Comparison
- Campaign Donor Count
- Campaign Revenue Share
- Campaign Trends Over Time

Geographic Analytics Dashboard

The Geographic Analytics dashboard analyzes city-wise fundraising performance.

Features:

- Donation Map
- Revenue by City
- Donor Count by City
- Average Donation by City

Payment Analytics Dashboard

The Payment Analytics dashboard evaluates donation channels and payment preferences.

Features:

- Revenue by Payment Method
- Transaction Count by Payment Method
- Payment Method Share
- Average Donation by Payment Method

4. Key Findings

Fundraising Performance

The foundation collected a total of ₹18,11,618 through 500 donation transactions.

The average donation amount was ₹3,623 per transaction.

A total of 99 unique donors contributed to the fundraising efforts.

Donor Analysis

Out of 99 donors, 92 donors made more than one donation.

The donor retention rate was approximately 92.93%, indicating a highly loyal donor base.

Repeat donors contributed a significant portion of the total fundraising revenue, demonstrating the importance of donor retention strategies.

Campaign Analysis

The Women Empowerment Program was the highest-performing campaign, generating ₹6,68,159 in donations.

Campaign Revenue:

- Women Empowerment Program: ₹6,68,159
- Education for All: ₹4,18,642
- Skill Development Initiative: ₹4,07,361
- Books for Children: ₹3,17,456

The Women Empowerment Program generated approximately 36.9% of the total fundraising revenue.

Geographic Analysis

Mumbai was the highest-contributing city with total donations of ₹5,36,819.

Top Contributing Cities:

- Mumbai: ₹5,36,819
- Pune: ₹3,71,180
- Delhi: ₹2,69,132
- Nagpur: ₹2,25,526
- Bengaluru: ₹1,61,965

The majority of fundraising revenue was concentrated in metropolitan cities.

Payment Method Analysis

UPI emerged as the dominant payment method, accounting for approximately 71.8% of all donation transactions.

Revenue by Payment Method:

- UPI: ₹11,57,851

- Bank Transfer: ₹2,97,195
- Credit Card: ₹2,14,376
- Debit Card: ₹1,22,638
- Net Banking: ₹19,558

Digital payment methods contributed the majority of fundraising revenue.

5. Recommendations

Recommendation 1: Focus on High-Performing Campaigns

The Women Empowerment Program generated the highest fundraising revenue. Similar campaigns should receive additional marketing and fundraising support.

Recommendation 2: Strengthen Donor Retention Programs

Since repeat donors contribute significantly to total fundraising revenue, NayePankh Foundation should implement donor loyalty programs, regular engagement initiatives, and personalized communication strategies.

Recommendation 3: Expand Activities in High-Contributing Cities

Mumbai, Pune, Delhi, and Nagpur contribute a substantial share of total donations. Fundraising campaigns and awareness programs should be expanded in these cities.

Recommendation 4: Optimize UPI-Based Donations

UPI is the preferred donation method among donors. The organization should simplify UPI donation processes and prominently display QR codes and digital payment options.

Recommendation 5: Use Analytics for Future Decision-Making

Regular monitoring of donation trends, campaign performance, and donor behavior can help management make data-driven decisions and improve fundraising effectiveness.

6. Conclusion

This project demonstrates the value of Data Analytics in supporting fundraising operations for NayePankh Foundation. By analyzing donor behavior, campaign effectiveness, geographic contribution, and payment preferences, the organization can identify opportunities to increase donations and improve donor engagement.

The Power BI dashboard transforms raw donation data into actionable insights, enabling better decision-making and supporting the foundation's mission of creating positive social impact.
